

Dr Caroline Ward

Aspiring Leaders Fellow – Transformation

Cohort 4 2023/24

Shipston Medical Centre, Shipston-on-Stour

I am Caroline. I currently work five sessions as a salaried GP at Shipston Medical Centre and have been qualified for just under 10 years. My role includes teaching medical students and providing medical cover at a 25 bed rehab ward at Leamington Rehab hospital.

I qualified in Newcastle upon Tyne and remained in the Northern Deanery for my foundation program, two years as an ACCS trainee followed by the Northumbria VTS Scheme. As a trainee I was a GP trainee representative to ARCP appeals panels. After CCT I became involved in the recruitment and selection to the Northern Deanery VTS schemes. I relocated to Warwickshire over 9 years ago for work and family.

The fellowship role is an exciting and privileged opportunity for me to further develop leadership skills and to increase my understanding of organisational structures, patient interfaces and transformation in the NHS. I look forward in particular to opportunities in primary care development and workforce planning and retention.
