

If you have been a prescriber (GP, Pharmacist IP or ANP) for more than a year and your day-to-day practice involves reviewing patients with multiple medications, the holistic care for such patients and deprescribing where appropriate; then the **Polypharmacy Action Learning Sets** are a must attend course to improve your competence and confidence in performing structured medication reviews (SMRs) and stopping medication safely.

Endorsed by Tony Avery and enabling practices to comply with the medicine's optimisation elements of the **DES and NOR** including enhanced **shared decision-making**. The 3 virtual events will further your ability to perform high quality medication reviews, help you to feel more confident reviewing complex medication regimes and deprescribing where appropriate.

Who can attend: Health care professionals that have been prescribing for more than a year.

Where: Virtual online – Zoom
