

Why take part in the general practice staff survey?

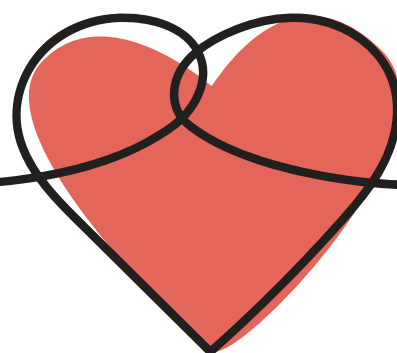

It's **completely confidential**. What you say is kept anonymous

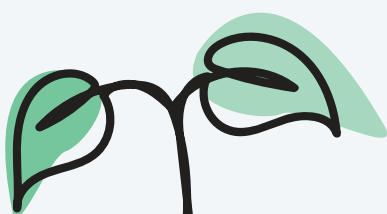

It only takes **15 minutes** to complete and can help make the NHS the workplace we all want it to be

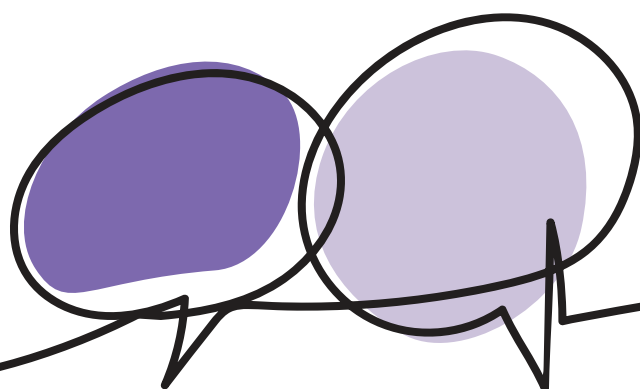

It contributes to one of the **largest employee surveys** in the world

We're starting with **general practice** now but will include other primary care teams in future

It will contribute to understanding the experiences of our NHS people and to **see where more change is needed**

Because your voice counts. Help us understand more about the experience of people working in general practice

Complete the survey to have your say
